

Spotlight On Justice

DOCTORS BELIEVE THAT LAWSUIT OUTCOMES ARE FAIR

Of the 47% of internists who report having ever been sued, including situations where claims were quickly dropped (almost none of whom faced an actual trial), "[a]bout two thirds of internists thought the outcome of the lawsuit was fair, similar to the 61% of overall physicians who responded the same."

Alicia Gallegos, Medscape Internist Malpractice Report 2021, March 22, 2022
