November 8, 2019

Administrator Ray Martinez
Federal Motor Carrier Safety Administration
1200 New Jersey Avenue SE
Washington, DC 20590-0001

Dear Administrator Martinez:

The Washington Trucking Associations, Inc. (WTA) has petitioned for a ruling to preempt Washington State’s longstanding employment law as it pertains to meal and rest break rules for drivers of commercial motor vehicles. We strongly urge you to reject this petition.

WTA argues that since the Federal Motor Carrier Safety Administration (FMCSA) approved (illegally, in our view) the trucking industry’s highly-controversial petition last year to preempt California’s similar employment law, there is no reason to deny WTA’s petition. This is incorrect. In neither case does FMCSA have authority to preempt state employment laws.

The Washington meal and rest law was specifically designed to reduce worker fatigue and to protect workers and the general public from workplace accidents, injuries, and deaths. The law applies to almost all workers generally and was not intended to directly regulate motor carriers.

States have long had the power to regulate the employment relationship and to protect worker health and safety. Washington exercised its traditional power when enacting the meal and rest provision in its administrative code. The WTA petition, which asks for an FMCSA ruling covering one class of workers in one state, is an egregious attack on one state’s employment law and states’ rights generally.

We strongly urge you to reject this petition. Please contact Joanne Doroshow at the Center for Justice & Democracy for more information: joanned@centerjd.org. Thank you for your consideration.

Very sincerely,
